

Start by reading *SICP* section 2.3.3 (pages 151–161).

1. *SICP* ex. 2.62.
2. The file `~cs61a/lib/bst.scm` contains the binary search tree procedures from pages 156–157 of *SICP*. Using `adjoin-set`, construct the trees shown on page 156.
3. *SICP* ex. 2.74.
