Start by reading *SICP* section 2.3.3 (pages 151–161).

1. *SICP* ex. 2.62.

2. The file ~cs61a/lib/bst.scm contains the binary search tree procedures from pages 156–157 of *SICP*. Using adjoin-set, construct the trees shown on page 156.

3. *SICP* ex. 2.74.
